EXPERIENCE

Senior Product Designer at Optro

April 2024 – Present

Formerly AuditBoard, which was acquired and rebranded to Optro in March 2026

Leading end-to-end product design for enterprise platform initiatives, turning complex data and technical workflows into intuitive, user-centric experiences.

- Leading UX end to end for an agentic AI reporting product for internal audit teams, in close partnership with product, engineering, and UX research
- Validating concepts directly with audit leaders across industries to reduce heavily manual reporting
- Created a framework for deciding how much autonomy AI agents should have, now used beyond reporting
- Facilitating continuous feedback channels for the design organization as well as product teams

Senior Product Designer at Measurabl

April 2022 – March 2024

Promoted from Product Designer in August 2023

Responsible for translating complex sustainability data and user needs into intuitive digital workflows, ensuring cohesive user experiences.

- Designed an ESG compliance reporting product from discovery through end-to-end UI, launching to an early access program with SFDR Principal Adverse Impact reporting
- Partnered directly with product and engineering leadership to redesign and integrate user experiences across Measurabl's enterprise sustainability software suite

Product Designer II at Hatch Data

June 2019 – April 2022

Promoted from Product Designer in January 2022

Served as founding designer, establishing the initial core branding, visual identity, and end-to-end user experience for the Hatch Data platform.

- Co-created a platform that reached an NPS of 49, with a user experience that served as a key market differentiator, leading to the company's acquisition by Measurabl
- Redesigned how energy-saving measures are worked and closed, substantially reducing improperly resolved measures after release

User Experience Designer at Enel X

May 2018 – June 2019

Promoted from User Experience Design Intern in March 2019

Enhanced the user experience of Enel X's web and mobile products through end-to-end prototyping, iterative design, and comprehensive usability testing.

- Worked directly with senior design leadership to map user journeys and deliver high-quality interface concepts across multiple digital platforms
- Validated design decisions using qualitative feedback from user testing, resulting in improved feature workflow efficiency

Marketing Designer at RIT Saunders College of Business

September 2017 – May 2018

Designed print and digital assets for Saunders College of Business, promoting academic programs, student recruitment, and university-wide events.

- Collaborated with the Marketing and Communications team to convert marketing objectives into visually compelling graphics and branded content
- Managed end-to-end design production for promotional materials while maintaining strict adherence to university brand guidelines

VOLUNTEERING

Marketing & Communications Manager at Rabbit Advocates

August 2026 – Present

Lead marketing and communications across email, web, and social to support adoptions, fundraising, and volunteer recruitment

Volunteer and Events Committee Member at Animal Aid of Portland

October 2021 – September 2025

Chaired the Events Committee, planning fundraising and outreach events, and led weekly caregiving shifts as Person-In-Charge
